

Colonial Pipeline Company

Thundering Lightning Plan

INCIDENT: CR91
LOCATION: Pelham, AL
DATE & TIME PREPARED: September 11, 2016 10:37 AM
PREPARED BY: Dawn Jones TITLE: DOCL

***Please note:** All approved plans must be filed with the appropriate Documentation Unit Leader (DOCL) to upload into WebIAP as well as disseminated to proper ICS Staff and/or included in the Situation Display.

Lightning and Thunderstorms

Whenever an electrical storm is threatening or in progress within a 15 mile radius of the area of operations, all work activities shall cease and personnel shall seek covered shelter outside of the work area. Personnel shall not return to the work area until 30 minutes after thunder and lightning has ceased.

Determinations shall be made at each site by Site Leaders and Site Safety Officers.

Large storms may necessitate total operational stoppage. Such stoppage will be determined and announced by the Safety Officer.
